Yes. The 2017 OST comments are from President Troy Weston, Doc ID 00546. I attached it because sometimes it helps to have the original doc to search.

There were a lot of references attached to these comments. I will review those to see if any are related to NEPA. I don't think any are, but I want to check again to be sure.

Just wanted to confirm for Erin that the OST's 2017 comments were in the Cadmus table.

Thanks Lucita – they also refer to comments the Tribe provided in 2017. Should I assume those were captured in the Arcadis table? Thanks -Erin

No, we did not issue an RTC, so I'm not sure what they're talking about.

Hi-

OK, back working on DB now. My head hurts. Anyway – I am looking at page 3 of the OST comments on NEPA FE, and it says "EPA's Response to Comments do not contain the type of detail necessary to demonstrate compliance with the cumulative effects review requirements." Did we already do a RTC? I'm a little confused... Maybe they are talking about the 2019 CEA? Any ideas?

Thanks,  
Erin
